

24 Ports PoE+ PSE 430W Power Supply UTP7224E-PSE

PoE Management | Ultra Bandwidth | Easy Installation

PRODUCT FEATURES

1 Real-time monitoring of PoE management

The powerful PoE management software is capable of real-time monitoring the status of every port. It can also control the PoE power supply of every port, thereby increasing the efficiency of power supply. The user-friendly management page streamlines operations and maintenance.

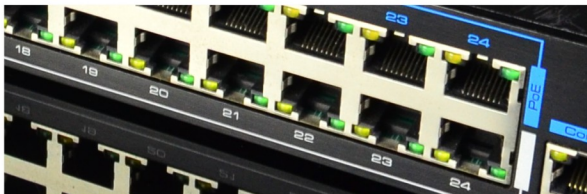

2 430W High power and quality

PoE & PoE +; each PoE power supply up to 30W;

3 High PoE/PoE+ power supply

PoE & PoE +; each PoE power supply up to 30W;

4 2 KV lightning protection Level 3 ESD

Excellent anti-interference and electromagnetic compatibility:
2 KV lightning protection, Level 3 ESD & 2KV pulse wave;
Good object in complex environments:

5 Standard 19-inch/1U case

It features the artistic design and sturdy case of standard 19-inch/1U. It is convenient for din-rail and desktop installation.
